ALL-IRELAND BUSINESS FOUNDATION

PRESS RELEASE

Drogheda's Pillaxia Named Medical Innovation Business All-Star 2025

Accreditation recognises pioneering medication-management platform

Drogheda company Pillaxia Ltd has been awarded the Business All-Star Medical Innovation of the Year 2025 accreditation by the All-Ireland Business Foundation (AIBF).

The recognition celebrates a health-tech company that has developed a novel, AI-driven medication-management platform with the potential to transform patient care and clinical outcomes.

Stephanie Esambe & Shushanta Pudssaini at Pillaxia celebrate their Business All-Star Medical Innovation of the Year 2025 accreditation from All-Ireland Business foundation.

Founded by Stephanie Esambe, Pillaxia sprang from a personal insight into the challenges of medication management and has grown into a technology-enabled firm combining clinical understanding, software design and patient-centred service. Their platform supports users,

caregivers and clinicians with features such as intelligent assistance ("Angela"), a tracking diary and integrated symptom-logging mechanisms.

This demonstrates Pillaxia's commitment to the AIBF pillars of Performance, Trust and Customer Centricity.

Pillaxia's recent achievements underline its rapid rise: from early-stage development to being showcased as a standout Irish startup and now earning national accreditation, the firm is making strides in the med-tech space. The Business All-Star title affirms that the platform is not just innovative but built with credibility, transparency and real-world impact at its core.

Stephanie Esambe, Founder of Pillaxia Ltd, said:

"We are honoured to receive this Business All-Star accreditation. From the start our goal has been to simplify medication-management and support people in meaningful ways. This recognition celebrates our team, our users and the clinicians who believe in what we do. We're excited to continue on this journey of health-tech innovation with integrity and purpose."

Kieran Ring, Deputy Chair of the AIBF Adjudication Board, said:

"Pillaxia is a fine example of how Irish innovation can meet genuine healthcare need. Stephanie Esambe and her team have developed a solution that combines artificial intelligence, empathy and practical delivery in a field where trust matters deeply. This accreditation recognises their performance, their customer-focus and their capacity to raise the bar in medical technology."

Kapil Khanna, Managing Director of the All-Ireland Business Foundation, said: "Pillaxia stands at the nexus of technology and their accreditation marks them out as one of Ireland's leading medical-innovation businesses. Their focus on trust, performance and customer value aligns closely with the standards we champion."

He said: "We evaluate a company's background, trustworthiness and performance, and we speak to customers, employees and vendors. We also anonymously approach the company as a customer and report back on the experience. The business goes through at least two interviews and is scored on every part of the process against set metrics."

About The All-Ireland Business Foundation

The All-Ireland Business Foundation is an autonomous national accreditation body tasked with enterprise development and the promotion of Best-in-Class Irish businesses.

As the accreditation body for the Business All-Star mark, the AIBF recognises Best-In-Class Irish businesses. Companies that merit recognition based on an independent audit of their performance, reputation, and customer-centricity.

Business All-Star Accreditation Is The Nation's Symbol Of Trust. Currently, there are over 750 companies that are accredited by AIBF. Since 2014, over 5000 companies have participated in our programs.

The AIBF also hosts the annual All-Ireland Summit and monthly gatherings to promote peer learning and collaboration among its accredited companies. For more information please visit www.aibf.ie
